Narrative

SUMMARY:

On 2-17-10 at approximately 1657 I responded to the levee on Wren Ave. and Uvas Creek to check on two vicious pitbulls. I was unable to locate the dogs I then responded to [REDACTED] Bristlecone and made contact with Inv. Doris Knapp. Knapp was very upset she believed her wrist was possibly broken. She said she was walking her dog on the levee when two loose pitbulls attacked her dog. She said one pitbull was attacking her dog from behind and the other one was biting her dog on the neck. She said she fell in the process. She said they had to strike the pitbull with a rock in order for it to release her dog.

Knapp said the pitbulls were about five years old, light tan color with white on the face. Knapp's husband took their dog to the vet and found their dog had a bite on its neck. She said she would be going to the hospital to get her wrist checked.

Summary Narrative

Supplement

Narrative

Case 10-776
Supplement
2/22/10
Cabatingan

On 2/18/10, I called VIC Doris Knapp at the phone number provided and left a message. On 2/22/10, I called Knapp and spoke with her over the phone.

Knapp told me she went to the doctor

Knapp's dog, "Genghis" a 12-year old male Chowchow mix was bitten on the neck and the rear. He went to the vet and had several puncture wounds on the neck and hind back area. He was given antibiotics. According to Knapp one of the Pit Bulls went for the neck, while the other went for the hind area. They tried dragging the victim's dog towards the creek area.

Knapp said both Pit Bulls were light tan with white faces. Neither dog was wearing a collar. There was also another small breed dog with them, possibly a dark brown Chihuahua mix.

At this time, it is unknown where the suspects dogs live or who they belong to.

Inbound call to 911

CHP Dispatcher: Thank you, Highway Patrol with a transfer call.

Dispatcher 1: Gilroy 911. What is your emergency?

Caller 1: There's a dog attack on the levee.

Dispatcher 1: Hi excuse me what Mam, what are you reporting? What's your emergency?

Caller 1: There's a dog attack on the levee.

Dispatcher 1: Who's being attacked?

Caller 1: Um, well it was attacking another dog and knocked a lady over. There is just, my concern is there is two pit bulls and a little dog running free on the levee, and

Dispatcher 1: Okay, mam those are two completely different things: a dog attacking another dog and just a dog running at large. Is the dog attacking another dog right now?

Caller 1: Okay, I just want you to know that there are two pit bulls running around, causing problems on the levee. That's all I want you to let you know. Thank you.

Dispatcher 1: Okay, is the pit bull the one that attacked the other dog?

Caller 1: Ya.

Dispatcher 1: And what part of the levee is this at?

Caller 1: It's right at the end of Wren Ave. I just think it could lead to further problems, that's all, thank you...bitch

Dispatcher 1: Excuse me?

(END OF CALL)

Inbound call to 911

Dispatcher 2: 911 emergency.

Caller 2: Hi, uh how do I get animal control? I was out walking my dog on the levee at Uvas and Wren and two pit bulls off leash came after our dog and in the process I fell, and I have probably a fractured rib/or ah wrist from it. And those dogs would not let go, we kicked,

Dispatcher 2: Okay.

Caller 2: fired a big stone, but animal control or somebody needs to get over there because they are off leash and the next person with kids or dogs are going to be the same victim.

Dispatcher 2: Okay. Are, Did you make it home okay?

Caller 2: Well, fortunately a friend came along in a car and she just brought me home, and now I'm gonna have to address the issue of the wrist and we're gonna have to take the dog to the vet.

Dispatcher 2: Okay, and you are, you're, so you are okay? You're home now?

Caller 2: I am home.

Dispatcher 2: Okay. Okay and um

Caller 2: But I just don't want those dogs running there

Dispatcher 2: Yeah.

Caller 2: because somebody else is going to be victim of the same thing

Dispatcher 2: Okay, can you hold on for just a second, okay?

Caller 2: M-mm

Dispatcher 2: Hang on

Call placed on hold

Continuation of Inbound call to 911

Dispatcher 1: Hi, you're reporting an emergency?

Caller 2: Well, I want animal control or someone, as I told the lady, I was walking the dog on the levee at Uvas and Wren and two pit bulls off leash came after us and they attacked

Dispatcher 1: Okay, but you're not there now? So there is no emergency? This has already happened?

Caller 2: This has happened, and some good Samaritan came along and picked us up to deliver me at home but I think I have a fractured wrist out of the deal and the dog is

Dispatcher 1: Okay, mam, I'm just trying to determine whether you're reporting an emergency right now because you called 911

Caller 2: No, and I told the lady before that I

Dispatcher 1: Okay, that's fine

Caller 2: that I'm interested in animal control going out and getting those

Dispatcher 1: Okay, that's fine, but mam you dialed 911 so I need to determine whether or not you have an emergency because we put all calls on hold to pick this up. So, right now you're reporting that this is something that happened a few minutes ago at Uvas and Wren?

Caller 2: That's correct.

Dispatcher 1: Okay, and is your dog injured?

Caller 2: Yes.

Dispatcher 1: Okay. Is he, are you going to be taking him to the vet?

Caller 2: We are.

Dispatcher 1: Okay, and

Caller 2: My big concern is to prevent it happening to somebody else because they are off leash and there are little kids and there are other people walking dogs on that levee.

Dispatcher 1: Okay, now when you say off leash, um does that mean there is an owner present and just not (inaudible)

Caller 2: We couldn't figure out if there was an owner, nobody claimed the dog.

Dispatcher 1: Nobody claimed the dog, okay.

Caller 2: No, we got a big circle of people, but nobody claimed the dog.

Dispatcher 1: Okay, and what were the colors on the dog?

Caller 2: They were a light tan pit bull with a little bit of white on them, there were two of them.

Dispatcher 1: Okay, and they both looked similar, light tan/little bit of white?

Caller 2: Ya, m-mm.

Caller 3: (in background) Tell them they ran down to the creek

Caller 2: And then we finally, they kicked at em and finally threw stones at em and they ran down toward the creek. And there was a little, I think, Dacshund runnin' with em.

Dispatcher 1: Okay, so they were last seen running into the creek. And that was right near the intersection Wren and Uvas?

Caller 2: Ya.

Dispatcher 1: Okay, and what color was the Dachshund?

Caller 2: He was a brown.

Dispatcher 1: Okay. Okay, and you mentioned a broken wrist. Are you requesting an ambulance?

Caller 2: No, I'm going there on my own to

Dispatcher 1: Okay

Caller 2: to seek help.

Dispatcher 1: Okay, and are you going to be taking your dog to the vet now or did want to speak to animal control before? I don't know how badly injured your dog is.

Caller 2: No, we'll take the dog down.

Dispatcher 1: You're gonna take him first?

Caller 2: Yep.

Dispatcher 1: So, do you want to go ahead and give us a call when you get back and we'll have animal control come out? Or do you just want us to keep a look out for the dogs on the levee?

Caller 2: I want animal control to look for the dogs on the levee.

Dispatcher 1: Okay, so you don't necessarily want contact with them you just want

Caller 2: No.

Dispatcher 1: them to look for the dogs on the levee

Caller 2: No, I do. I want to prevent this happening to

Dispatcher 1: Okay

Caller 2: somebody else, something worse.

Dispatcher 1: Okay, and could I get your name?

Caller 2: Doris Knapp, K-N-A-P-P

Dispatcher 1: Okay, I will go ahead and put in this information and have my Animal Control Officer go and take a look at the levee, and I'll still let her know your information in case she needs to contact you.

Caller 2: My number is [REDACTED].

Dispatcher 1: Okay, and your address on Bristlecone?

Caller 2: Correct.

Dispatcher 1: Okay, excellent Ms. Knapp. We'll go ahead and pass this on to Animal Control Officer and get her out to the levee.

Caller 2: I appreciate it very much. Bye

Dispatcher 1: Okay, no problem,

Caller 2: B-bye.

Dispatcher 1: b-bye.

(END OF CALL)

Inbound call to Dispatch (Non-emergency line)

Caller 3: Inaudible

Dispatcher 1: Gilroy Police & Fire, this is Mary.

Caller 3: Hi uh, I need to report a ah animal attack.

Dispatcher 1: Okay, where did this happen at?

Caller 3: uh, between, On Wren and Uvas.

Dispatcher 1: Wren and Uvas?

Caller 3: On the levee.

Dispatcher 1: Okay. Were you attacked or was your dog attacked?

Caller 3: Uh, my Mom and my dog. My Mom got knocked over and it attacked my dog and my

Dispatcher 1: I think I already talked to your Mom.

Caller 3: My Mom broke her wrist.

Dispatcher 1: Yeah, I already talked to your Mom

Caller 3: Oh, you did?

Dispatcher 1: Ya, she didn't want a report. She just wanted us to

Caller 3: She did want a report

Dispatcher 1: No, no listen to what I'm saying: she did not want a report, she just wanted us to respond to the levee and see if we could track the dogs down.

Caller 3: Have you, are you responding to it?

Dispatcher 1: Well, we don't have anybody to respond yet, but we will send an Officer out as soon as we do.

Caller 3: (to Caller 2 in the background) Why don't you want to report it Mom? In case they

Caller 2: (background) I do want to report it

Caller 3: She does want to report it.

Dispatcher 1: Okay, I asked her several times if she wanted to be contacted by an Animal Control Officer and she said no. She just wanted somebody to check the levee.

Caller 3: She would like to be contacted, here's the phone, she told me right now, here's the phone

Caller 2: Hello.

Dispatcher 1: Hi mam. I specifically asked if you wanted contact by an Animal Control Officer and you said no, you just wanted the levee checked for the dogs. So, do you want to be contacted by an Animal Control Officer

Caller 2: Well, then I want Animal Control to come and talk to me because I want to make sure they went out there because I don't want somebody to die over this.

Dispatcher 1: Okay, well it's gonna be a Police Officer because we don't have an Animal Control Officer on duty right now

Caller 2: I don't I don't, you know it makes me no difference

Dispatcher 1: Okay

Caller 2: who goes out, I am, I am very, I'm very concerned

Dispatcher 1: Mrs. Knapp, I understand that but that's why I asked

Caller 2: Okay, I didn't understand that

Dispatcher 1: Okay, but but what I need to know now is, are, when are you gonna be available for contact. You said you're taking your dog to the vet. Do you want to call us when you get back

Caller 2: No, I am not taking my dog to the vet. I am gonna have to have somebody else do it because I am not in any condition at the moment to go to the vet. I'm gonna have to end up going down to get an xray on the wrist.

Dispatcher 1: Okay, then what I need to know is when you will be available to be contacted. Because if you need to go seek medical attention and also your dog needs to go to the vet,

Caller 2: Uh hum

Dispatcher 1: do you/are you home now? Or? Do you want to wait for an Officer now or do you want to go take care of yourself first and call us when you're available to be contacted?

Caller 2: Doesn't make any difference. It doesn't make a difference.

Dispatcher 1: Okay

Caller 2: I want them to deal with the dogs on the levee first and then they can contact me and

Caller 3: (in background) they're not gonna do that. They have to contact you first.

Caller 2: Oh, alright.

Dispatcher 1: No we don't

Caller 2: I'll wait here

Dispatcher 1: No, no mam. Mam, Mrs. Knapp

Caller 2: I'll wait here. I'm just kind of emotional right now

Dispatcher 1: , he is telling you something that is not true. We do not have to contact you first, before we go to the levee.

Caller 2: Okay.

Dispatcher 1: So if you want, you, it's more important for you to take care of yourself and your dog

Caller 2: No, it's more important that somebody goes to the levee

Dispatcher 1: than for us to go out and check the levee than to actually make contact with you

Caller 3: (In background) Inaudible

Dispatcher 1: So, if you

Caller 2: Yes, they can contact me afterward

Dispatcher 1: After we check the levee

Caller 2: please. I'm more concerned

Dispatcher 1: But you are going to wait at home until we get there

Caller 2: I shall

Dispatcher 1: Okay, if you decide that you do want to go and get medical attention and we have not gotten out there, then give me a call back. I'll just put your call on hold and when you get back from the doctor, we can send somebody out to speak to you.

Caller 2: That's fine.

Dispatcher 1: Okay. Then as for right now we'll send somebody out to check the levee and then have them contact you.

Caller 2: Thank you so much.

Dispatcher 1: Okay, you're welcome. B-bye.

Caller 2: Okay.

(END OF CALL)

Outbound phone call from Dispatch

Caller 2: Inaudible

Dispatcher 1: Hi, is this Mrs. Knapp?

Caller 2: This is she.

Dispatcher 1: Hi, this is Mary from Gilroy Police Department. I wanted to let you know that we uh, we have checked the levee and we were not able to find the dogs, but we have an Officer on the way to your house right now.

Caller 2: Okay.

Dispatcher 1: Okay?

Caller2: thank you

Dispatcher 1: She should be there shortly.

Caller 2: thank you.

Dispatcher 1: You're welcome, b-bye.

(END OF CALL)

END
