

BE AWARE PREPARE

DURING NATIONAL PREPAREDNESS MONTH

How Much Do You Know About Preparing For A Disaster?

Instructions: Answer yes or no to the ten questions/statements below. Complete the bottom portion of the form and return entire form to your DSW Coordinator. You will receive an answer key and be entered in the 2008 Santa Clara County Preparedness Month drawing for a valuable emergency preparedness gift.

	Yes or No
1. Should you use a candle for light to look around the house after the earthquake?	
2. If you need to evacuate your house, do you lock the door?	
3. Making a family disaster plan is too expensive.	
4. If your house is on fire and you are stuck in your upstairs bedroom, you should call out the window.	
5. Should you tell your children to stay at school after a disaster until you can safely come and get them?	
6. You should use an out-of-town friend or family member as a point of contact in an emergency because long distance phone lines may be more readily available.	
7. You should store 8 ounces of water per person per day for emergencies. Do you think that's enough?	
8. There should be a pair of study shoes and a flashlight next to every person's bed who lives in your house.	
9. Part of your emergency plan should include two ways out of every room in the house.	
10. Each family member in your household should know how to turn off the water, gas and electricity at the main switches.	

DSW Coordinator: Tear here and return top portion to employee. Keep bottom portion for drawing on September 30, 2008
